

Nurse Visits Jail, But Doesn't View Slaying Suspect

CHICAGO (AP)—A nurse who survived the mass slaying of eight of her dormitory mates visited a jail hospital today but, a doctor said, did not view the man charged with murdering one of the young women, Miss Corazon Amurao, 23, and several other persons were taken to the jail hospital where Richard Speck, 24, accused in the mass killings, is being treated for self-inflicted cuts.

"Was he viewed?" reporters asked Dr. William Norcross, associate medical chief of the hospital. "It did not occur," he replied. Earlier the doctor said he had advised against a confrontation of Speck and outsiders because of the effect it might have on his physical condition.

Speck was ruled unfit to appear, as planned for today, in the felony division of the Circuit Court for arraignment on a murder charge.

State's Atty. Daniel Ward told reporters, "There will be no court appearance today upon the medical advice of the doctors."

He said that Dr. William Norcross, associate medical director of the City Jail Hospital, asserted that Speck still is substantially under the effects of sedation.

Ward was asked whether Miss Corazon Amurao, 23, the only survivor of Thursday's killings, who was brought to the jail, had identified Speck as the killer.

"I can't make any comment on that," he said.

Miss Amurao spent 2½ hours in the house of correction. Police have guarded her as closely as they have Speck, and kept her secluded from newsmen.

John Stamos, first assistant state's attorney, indicated earlier that Speck's appearance might be held in a court session in the jail.

He has been in the hospital since early Sunday after his arrest. He had been taken to the hospital from a cheap hotel where he apparently tried to end his life.

Survives

PAOLI, Pa. (AP)—A 19-year-old boy survived burns from an 11,000-volt railroad power line today, thanks to four youths who fought his unconscious effort, atop a moving train, to get up and again touch the overhead line.

Police said Herbert Johnson, of Meadville, jumped to a boxcar from a railroad tank car after several companions dared him to make the leap. He brushed the power line on his way down.

Dee States Sales Tax Is Not Needed

EMMETT, Idaho (AP)—Sen. William J. Dee of Grangeville, Democratic candidate for governor, campaigned in southwestern Idaho today, reiterating his contention that the sales tax is not needed.

Dee spoke at Emmett Sunday afternoon, and planned visits this week also to Ada, Elmore and Owyhee counties. His supporters arranged a caravan trip from Boise to Homedale for the afternoon and a "Dinner with Dee" in Boise Saturday evening.

In his talk in Emmett he noted that the state's financial report showed a general fund balance of \$3.6 million as of June 30.

"This surplus is important," Dee said, "in that it is more than enough to pay our increased obligations to the public schools during the seven months of this biennium, in the event that the sales tax is voted down."

"The sales tax will be on the Nov. 8 ballot as a referendum, not a ballot as a referendum."

Alarm Fire Gives Police Power Test

CHICAGO (AP)—With National Guard troops withdrawn to armories, an extra alarm fire in a riot-torn district gave police a test today of their power to control disorders in emergencies.

In the early morning hours, 2,700 guardsmen were taken off West Side streets where they spent three nights on riot duty. They were ready to return to the streets.

The fire started in the basement of a drugstore at 1848 W. Roosevelt Rd., target of looters during last week's disorders.

A crowd of 500 spectators gathered at the scene but they caused no trouble. At a fire west of downtown, firefighters with rocks as they fought a blaze in a Negro neighborhood.

The drugstore basement fire was extinguished in 1½ hours. The force of some 4,000 guardsmen was more than halved early today.

Disaster Area Proposal Draws Criticism in Rupert

RUPERT — During a central Democratic committee meeting Sunday, Ottol Smith, a candidate for State Representative from Legislative District 21, said, "Mrs. Brooks has shown us appalling lack of concern for individual farmers in this area."

Smith went on to say, "I wish Mrs. Brooks would be more concerned in her statements. In Wendell last week she chided the Department of Agriculture for dumping commodity credits on farmers and yet in the same breath she asks the same department of agriculture to bring in cheap feed for the sheep and goats."

"I feel confident that the farmer elected AFC committee is keeping a close watch on this situation and if the price of feed grain and hay should go out of control they will act in accordance with the seriousness of the situation," he concluded.

SAIGON, South-Viet Nam (AP)—Fifteen waves of American bombers pounded a major oil depot in North Viet Nam Sunday and touched off 35 fires and 51 explosions in the big storage complex, the U. S. military command reported today.

Six Air Force jets struck the Badon fuel depot 20 miles northwest of Dong Hoi while other Air Force planes hit another oil storage area one mile east of Badon.

Bear Shot

BRACE, Idaho (AP)—When a 300-pound black bear poked his nose into Don Jewett's bedroom Sunday night, Don retreated upstairs with his wife and baby.

But when the bulky brute started through the window, Jewett forgot a telephone call to the game warden and fired his rifle.

The bear dropped dead. Jewett was awakened by a racket at the rear door about 11 p.m.

Only a bear holding a window screen in place kept the bear out, Jewett said.

Hanoi Makes Appeal to Red Allies

TOKYO (AP)—North Viet Nam made an unusual appeal today for more material and moral support from its Communist allies and other nations, describing its war situation as "extremely serious." But Red China indicated it is not ready to send its soldiers into the fight.

The plea came from North Viet Nam's Fatherland Front—a coalition of political parties and organizations under Communist control—followed by President Ho Chi Minh's decree of partial mobilization with a call for more material and political support from its Communist allies and other nations.

Control Fight Dismissed

THE HAGUE, Netherlands (AP)—The International Court of Justice, by a single vote, dismissed today a six-year fight to end South Africa's control of neighboring South-West Africa.

The court ruled that the two nations' arguments to alter the status quo, but established no legal right to bring the suit to break the old League of Nations mandate under which white-ruled South Africa administered the territory.

Astronauts Set To Ride Rocket On Space Mission

CAPE KENNEDY, Fla. (AP)—Well-rested after 10½ hours sleep, the Gemini 10 astronauts awoke today and prepared to ride a rocket into space on a dual-rendezvous and space-walk adventure that could send them soaring deeper into space than any other man. Navy Cmdr. John W. Young and Air Force Maj. Michael Collins were awakened at 12:30 p.m., shaved, showered, ate a late breakfast of steak and eggs and underwent a physical examination before donning their bulky space suits.

While the astronauts slumbered, two launch pads buzzed with activity as crews prepared for the late afternoon double launching.

The countdown on an Atlas rocket started right on time at 3:31 a.m. EDT. The Atlas is to make a fiery departure from the launch pad.

Air Strike Could Last Another Week

WASHINGTON (AP)—Pessimistic negotiators predicted today the strike against five major airlines probably will last for at least another week. Now in its 11th day, the strike has shut down all but national defense operations of the five lines and has inconvenience travelers throughout the nation who have business and other airlines as well as railroads and bus lines in an effort to carry out summer travel plans.

The chief union negotiator blamed the airlines for the slow pace of the talks. "They keep their feet planted in the concrete," said Vice President Joseph Ramsey of the AFL-CIO International Association of Machinists.

Ramsey said extensive layoffs and closing of ticket offices indicate the strike could go on "for an extended period of time."

League Urges State System Of Airports

COEUR D'ALENE (AP)—A state-wide system of regional airports has been urged by Idaho cities with city managers' endorsement to the sales tax, asking a bigger share of the action.

The action came in closing sessions Saturday of the Idaho Municipal League convention. And the league changed its name to the "Association of Idaho Cities."

Pocentelli Commission Chairman Earl Pond was elected association president to succeed Rupert Mayor Wendell Johnson.

Three cities with city managers' endorsement urged a legislative council committee conducting hearings at the convention to include their form of government in revision of the state's municipal code.

The system of regional airports was urged in a resolution asking state financial assistance in coordinating airports for its development.

Senate Opens Debate on Foreign Aid

WASHINGTON (AP)—The Senate opened debate today on the foreign aid program today with an argument over whether aid was a factor in involving thousands of American troops in the Viet Nam war.

Sen. J. W. Fulbright, D-Ark., chairman of the Senate Foreign Relations Committee, charged that Secretary of State Dean Rusk had made an "astonishing assertion" listing aid as one of the elements in the U.S. commitment to South Viet Nam.

This was "the first factor" behind the committee's decision to turn down the administration request to give the program a five-year authorization and eliminate the usual one year in aid, Fulbright said.

Rusk attempted last week to quiet concern that aid programs could be used as a backdoor commitment to a "series of losses."

Mayor and Aides Slain in Manila

MANILA (AP)—Mayor and five aides on their way to attend a law and order conference with President Ferdinand Marcos were slain by Philippine insurgents today, the Philippine constitutional reported.

Troops were rushed to the scene of the attack. Although the Communist rebels were crushed militarily during the 1950s, scattered bands still roam the provinces around Manila and terrorize villagers.

National Water Board Is Pondering River Basin Pact

BOISE (AP)—Gov. Robert E. Smylie was informed today that the National Water Resources Council has under consideration the request for establishment of a Pacific Northwest river basin commission.

The request for creation of the commission was made by identical letters from Smylie and the governors of Montana, Oregon, Washington and Wyoming.

Henry P. Caulfield Jr., Washington, D.C., executive director of the council, said the agency would act on the request soon. Smylie told his news conference in a confident creation of the commission will put the Columbia basin states in better position to resist efforts to alter the water rights in the northwestern water.

Smylie noted that Utah and Nevada, each of which includes a tiny portion of the Columbia River basin, do not have voters in the commission, although they can send observers.

The dinner was followed by a voluntary address by Douglas D. R. Kramer, Republican candidate for state senator and immediate past president of the Twin Falls Chamber of Commerce.

In his address, he emphasized, "Service to community, state and nation by groups such as this is one of the main reasons this nation is so strong."

That service, however, must be directed in a manner that unifies us and does not divide. We cannot survive as a community, state or nation by isolating one community from another.

He added: "It is a rare individual anyone who believes that one town or one area can survive alone. We have come to realize, in Idaho for instance, that 800,000 people seeking a common goal can accomplish far greater things than can one town against the whole state."

Charlie Company Sees Much Action in Viet Nam War

XUAN LOC, South Viet Nam (AP) — Eyes peered from faces grizzled with whiskers and crusts with dirt.

Men started vacantly into space or into the mud and leaves that oozed around their ankles.

Arms and faces were scratched. Trousers were torn. Uniforms were stained with sweat, mud and red clay.

Charlie Company of the 2nd Battalion, 503rd Infantry, 173rd Airborne Brigade, had come in from nine days and nights in the jungles near Xuan Loc.

The official report said they had killed 20 Viet Cong and suffered light losses themselves in Operation Yorktown.

The statistics were not impressive. There had been no major battles, no big finds of supplies or fortifications or documents.

But Charlie Company had known death and fear and nine days and nights of grueling jungle warfare.

The severest test came one day shortly after dawn. Thin light filtered through the jungle canopy. Charlie Company trudged through the mud to break camp.

Suddenly, bursts of enemy fire seemed to slash from every direction. Superior firepower finally forced the Viet Cong to break and retreat. Artillery shells crashed into the jungle and followed their withdrawal. Explosions shook the earth. Sounds of fleeing wounded reached the American encampment.

Charlie Company counted 15 Viet Cong bodies, some only a few feet from American foxholes.

Four paratroopers died, all in the first onslaught of fire. The men watched wounded buddies lifted away in helicopters. The dead wrapped in ponchos followed.

Two days later a band of guerrillas struck from concealed positions. The paratroopers plunged to the ground and began pouring

fire into the trees and brush. The Viet Cong slipped away. They left one dead American.

The jungle was so thick no helicopter could come in. Four men carried the dead man, wrapped in his poncho.

Within an hour monsoon rains poured down. The ground turned slick.

"We've got to get more troops," said Capt. John Leide of Auburn, N.Y. "One or two hours a night is about all we've been able to pull."

But the nightly strain on nerves didn't let up.

On the ninth day the company was ordered in the base camp of the battalion artillery. The sun moved out of the clouds.

Nearing the camp, the lead men sped the pace. The rest was not far away.

Near the end of a column, a team carrying the heavy tube and steel plate for the 160mm mortar began to falter.

"You keep going," they kept saying. "You're not gonna come this far and fall out now."

Half an hour later, Charlie Company trudged past the troops guarding the base camp. Under the shade of trees in a rubber plantation, men flopped to the ground. They threw off their helmets and dropped their packs.

Charlie Company could relax — for a while.

CSI Vocational Courses Still Open Are Announced

Gerald Meyerhoffer, vocational guidance counselor of the Area Vocational School, College of Southern Idaho, Twin Falls, announced Monday a course in Mid-Management is still open for enrollment.

Mid-Management, a two-year course which trains students in such areas as merchandising, salesmanship, business mathematics, business communication, personnel management and advertising, is aimed at meeting the 22 per cent increase predicted in the sales and kindred occupations by 1968.

Many first-year Mid-Management students are employed in jobs related to this training. Advanced students hold part-time jobs in this field as they continue their second year of study in the program.

Meyerhoffer urges all persons interested in Mid-Management to contact the school as early as possible to insure enrollment.

Other courses that are still open for the fall semester were announced by Herschel Boydston, acting director of the Area Vocational School.

Courses to be offered, which are not yet closed, are agricultural business, welding, farm equipment technology, electrical appliance servicing, television and radio, and food technology.

Courses in automotive technology, automotive body and fender repair, and practical mechanics have been closed.

Agricultural business combines agriculture and business principles. It is a survey of agricultural economics, mathematics, business communication, principles of marketing and other areas of agriculture. Included in the course is a survey of agricultural business of the area.

Agricultural equipment technology develops mechanical abilities in many phases of tractor and implement repair and maintenance. Major areas of study for this course include arc and acetylene welding, gas combustion and diesel engine repair and maintenance, hydraulics and electrical and cooling systems.

Radio and television technology is a comprehensive course in fundamentals of electricity related to AM and FM receivers, record players and television circuits.

Nonviolence Failing in Rights Group

NEW YORK (AP) — Floyd B. McKissick, national director of the Congress of Racial Equality, said Sunday that CORE is having little success now with its nonviolent program.

"You can't teach nonviolence any more," he said. "We are a country of violence."

McKissick, who is a leader of the civil rights movement, told reporters after a local television appearance.

"Didn't Chicago prove that to you, didn't the Meredith march prove it to you?" he asked.

Small Girl Vanishes in Mine Shaft

CADUMET, Mich. (AP) — A girl fell into an abandoned mine shaft and vanished Saturday in the heart of Michigan's rugged copper country.

Four hours later, a rescue worker, lowered 60 feet into the pit, said there was no sign of Ruth Ann Miller, 7.

Ruth Ann, daughter of Mr. and Mrs. Eugene Taylor of Calumet, fell into the shaft about noon while playing with her brother, Gary, 10, near the shaft's opening.

Ruth Ann is Mrs. Taylor's daughter by a previous marriage.

The mine is owned by Calumet and Hecla Mining Co., which was celebrating the 100th anniversary of its founding when the tragedy occurred.

Some 10,000 to 15,000 persons were attending a centennial parade and other festivities when the accident was reported by Gary.

Michigan state police said the girl apparently fell through a small hole in a cap which covered the shaft opening.

"Police said they do not know how deep the vertical mine shaft was," said Earl Gagnier, the Houghton Mining Gazette, said. "Some of these shafts are 3,000 to 5,000 feet deep."

Policeman Bans Movie In Nashville

NASHVILLE, Tenn. (AP) — A police sergeant who once gave tickets to two motor males for "illegal parking" has shut down the movie "Who's Afraid of Virginia Woolf?" in Nashville.

"I represent the thinking of the good people of this town," said Sgt. Fred Cobb, a soft-spoken Baptist deacon and Sunday School teacher. "I just don't feel like they would approve of this type of film for young people to see."

After sitting through the film Saturday night, Cobb returned Sunday night with a warrant for the arrest of theater manager Lawrence Martin Kerrigan, 55. Kerrigan later was released on \$50 bond to appear today in city court.

Cobb confiscated one reel of the film, and then mounted the stage to tell some 700 moviegoers why the picture had been stopped. They got their money back.

Cobb's warrant said the film, which stars Elizabeth Taylor and Richard Burton, violated city ordinance banning profanity on the screen.

"It's a disgrace," said Cobb. "I couldn't rest easy without doing something about it. It seems to tear down everything that is decent and worthwhile in our society."

Luci Johnson Picks Wedding Attire For Self and Twelve Bridesmaids

WASHINGTON (AP) — Luci Johnson has picked floor-length, stiletto more dresses in blending shades of pink for her 12 bridesmaids, with matching illu veillets that flow to the floor.

She has decided that her high noon church wedding Aug. 6 to Patrick J. Nugent of Waukegan, Ill., will have a pink and white theme. Her own dress, picked weeks ago, is an elegant long gown — is being kept secret until the wedding day.

President Johnson, the bridegroom and the 12 bridesmaids will wear traditional morning attire — Oxford gray cutaway coats and striped gray and black trousers.

Still to be announced by the White House is the attire of the First Lady, the mother of the bride, Mrs. Johnson, and the groom of the bridegroom's mother, Mrs. Gerald P. Nugent.

The White House, getting queries about what the guests should wear, said business suits will be appropriate for male guests and informal ensembles will do for the women.

The bridesmaids' gowns are the design of Priscilla of Boston, a New York- and Boston-firm which is the work of the architect (a) Kidder, who has specialized in bridal clothes for more than 30 years.

They were picked by practical Luci with two things in mind: they had to be dresses that could be worn again and everything had to be "within a budget the bridesmaids could afford."

In announcing the wedding attire Saturday night, the First

Lady's press secretary, Elizabeth Carpenter, said it was traditional for bridesmaids to pay for their own dresses — and Luci's bridesmaids would be no exception. On the question of how much the gowns cost, Mrs. Carpenter dodged with the comment: "We don't put a price tag on romance."

The groomsmen, and probably the bridegroom, too, will rent their cutaways. Mrs. Carpenter said she didn't know what the President would do about getting his morning outfit.

Location of Animals Asked

BOISE (AP)—The Idaho Fish and Game Department said Sunday its efforts to study big game animals' habits by tagging them depends on hunters turning in the tags or reporting where they saw the animals.

The department said it tagged 324 big game animals last year and has tagged 170 elk near Dwarshak—Dum construction over the past three years to see what the effect of the dam's reservoir will be.

The 53 mile lake behind the dam will flood 15,000 acres of deer and elk winter range, the department said.

Can an \$8000 car find happiness on \$12 tires?

If she's a simple hometown car that doesn't lead a fast life, \$12 tires may be all she needs.

In which case, a B.F. Goodrich dealer won't romance you into spending a penny more on her.

He can't. Because once he hands you the BFG Tire Value Calculator, you're in the driver's seat.

You tell the Calculator about your driving... how much you do, how fast you go.

Then it tells you which tough B.F. Goodrich tire will suit you best, cost you least.

At B.F. Goodrich we give you straight talk about tires. Not a lot of mumbo jumbo about cords, plies and miracle rubber. We match our tires to your driving.

Of course, the tire you buy may cost more than \$12. But at least you'll know it's the best tire for you.

Baker Expresses Happiness With New Motel and Future

OCEAN CITY, Md. (AP) — Bobby Baker, storm center of the 1964-65 Senate investigation into charges of influence peddling on Capitol Hill, relaxed in the calm of his ocean front motel.

"I don't think I've ever been more happy mentally in my life," said the proprietor of the Carousol. "I've got more friends — real friends — than I have ever had. I have a good wife and five kids and the time to be with them. I'm grateful just to be alive."

The 38-year-old former secretary to the Senate majority, whose business holdings are reputedly worth millions, was dressed in light tan work pants and a broad checked sport shirt. The former South Carolinian, in an interview, talked with enthusiasm of his elaborate expansion plans for the motel. Of his forthcoming trial on charges of conspiracy and income tax evasion charges, he said:

"I know the truth and I sleep with it every night. I have enough confidence in any 12 jurors in this country to know that I will be given a fair shake. . . . We're going to make this the finest project between Boston and Miami Beach over the next five to 10 years," said Baker. Baker says he now finds himself an accepted member of the community by most people he meets and he has even been urged publicly to run for mayor of Ocean City.

He spends an average of five days a week here, making occasional visits to his other enterprises. He still has the vending machine business in California. That figured prominently in the Senate hearings. He also owns a motel-marina in the Los Angeles area, a motel at Charlotte,

N. C. and a cemetery business in South Carolina.

His five children — Bobby Jr., 16, Jimmy, 14, Dorothy, 13, Linda, 6, and Lyndon, 4, — are with him at the Carousol and his wife, Dorothy, joins them each weekend. From Washington where she works as a secretary to the Senate Internal Security subcommittee.

"I was busy last summer with the Senate hearings and other things," he said. Baker appeared at the hearings and pleaded the Fifth Amendment on advice of counsel.

The Senate-Rules Committee held that Baker, a former protégé of President Johnson, committed "gross improprieties" but violated no law in his private business dealings while majority secretary.

NAMED FOR TRAINING
SAN ANTONIO, Tex. — Airman Steven A. Crane, son of Mr. and Mrs. Alfred Crane Jr. of Tulsa, Okla., has been selected for technical training at Chanute AFB, Ill., as a U.S. Air Force aircraft maintenance specialist.

Consistent in your own desires, you are not one to flit from one idea to another, one dream to another, changing goals as the fancy strikes you. Rather, you set your sights on a single mark and go after it with exceptional determination.

The speed with which you attain your announced aim is often a surprise to many — especially to those who do not understand as you do the value of following a true course.

In choosing a mate you must take care to select someone as ambitious for your success as you are. Of a woman, this is especially true, for you would not be happy relegated to the "corner" of the household; you will want to have a say in what is going on in the family and be a partner in the making of decisions.

To find what is in-store for you tomorrow, select your birthday and read the corresponding paragraph. Let your birthday star be your daily guide.

CANCER (June 22-July 23) —

— Self-assurance and the willingness to help another in distress — these attributes should win the day for Capricorn.

AQUARIUS (Jan. 21-Feb. 18) — When speaking to those in authority, don't allow unintentional ambiguity to belound your meaning. Plain, clear explanations are in order.

PISCES (Feb. 19-March 21) — You should be able to rectify a situation resulting from ill-informed practices of some weeks ago. Apply new-gained knowledge.

ARIES (March 22-April 20) — A donation of time is often worth more than a gift of money. Remember this when approached by community leaders for help.

TAURUS (April 21-May 21) — Be assured that the Taurus who meets his responsibilities wholeheartedly today will not go unnoticed when the rewards are handed out.

GEMINI (May 22-June 21) — A day when all things are relative. So long as you do your best — no matter how poor that may be — all should go well.

SCORPIO (Oct. 24-Nov. 22) — Relegate some of today's minor chores to those less able to take over the load than you are. Your talents are needed elsewhere.

SAGITTARIUS (Nov. 23-Dec. 22) — A crisiscross of events may leave you somewhat confused as to what you have accomplished today. A satisfactory answer comes later.

CAPRICORN (Dec. 23-Jan. 20) —

— "A little learning is a dangerous thing!" Don't think that because you have some basic information on a subject, you are ready to take over!

LEO (July 24-Aug. 23) — Discrimination is the key to a successful day. Choose your companions as carefully as you would choose a mate!

VIRGO (Aug. 24-Sept. 23) — Be rigorous in your attention to detail and the day should pass without unfortunate incident. Facts and figures are the focal points.

LIBRA (Sept. 24-Oct. 23) — Little pitchers have big ears! Take care what you say and how you say it when there are children in the environs. You could do much harm.

— Demo Terms Idaho Slack In-Procedure

EMMETT, Idaho (AP) — Democratic candidate for secretary of state, Conley Ward of Nampa, said Sunday Idaho has been careless in following election procedures — for which the secretary of state is responsible.

Candidates' names often are not related on ballots — even though printers are paid to rotate the names, Ward said at a Democratic picnic. He said studies show the first name on a ballot has a 15 per cent advantage.

Ward said there are a number of other violations including improper election of delegates to state assemblies by county assemblies.

"Better communication must be established," he said, "between the secretary of state, county clerks and central committees to spell out these procedures in detail."
